The volume contains the works presented at the 2nd International Symposium of Economic Informatics of Romania, which was held from May 10-13, 1995, in Bucharest.

The Symposium was set up by the Department of Economic Informatics and has been honoured by the presence of several specialists from the Arabian Republic of Egypt, Austria, Congo, France, Germany, Greece, the Republic of Moldavia, the Netherlands, Switzerland, United Kingdom, United States of America and Romania.

We give our thanks to the participants, sponsors, to the press, students, to the colleagues of the Academy of Economic Studies Bucharest, who, by their efforts, skills and understanding, contributed to the good organization of the Symposium.

Section I - Methods, Technics and Programming Tools

♦ A C++ Implementation of Generic Historical Object Class for Handling of Historical Date - L. C. Valet, University of Leeds, England	3
♦ Sur la rationalisation assistée par ordinateur de systemes d'information - C. Apostol, Academie d'Etudes Economiques, Bucarest, Roumanie	10
♦ Facilitating BPR with Case-based Modelling of the Information Infrastructure - Roelof J. van den Berg, Eindhoven University of Technology, The Netherlands	16
♦ Strategy of Programming - T. I. Bragaru, A. C. Goncearenco, S.M. Pereteatcu, V.C. Sibirsky, Academy of Economic Studies, Chişinău, Moldova	22
♦ Optimization of Large Software Systems - Petru Curticăpean, National Bank of Romania, Tg. Mureş Branch, Romania	26
♦ La Ré-ingénierie: objectifs et techniques - M.Ayache, M.Ouhalima, K.Menhoudj, L.I.S.I. INSA - Lyon, France	30
♦ The Problems of Elaboration and Implementation of the EXTENDOR's in the Adaptable Languages of Object Oriented Programming - Dumitru Todoroy, Diana D. Micuşa, Academy of Economic Studies, Kishinev, Moldova	38
♦ ObjectLogic - A Deductive Object-oriented Interface - Mircea Răureanu, Beatrice Drăgan, Michaela Ciucur, Octavia Popescu, Research Institute for Informatics, Bucharest, Romania	40
♦ Fondements et evolution du paradigme objet - M. Ayache, A. Flory, L.I.S.I. INSA - Lyon, France	48
♦ A Software Tool for Evaluation of Production Systems Modeled with Stochastic Petri Nets - Emilian Gutuleac, Anatol Gavriluc, Igor Enicov, Technical University, Kishinev, Moldova	58
♦ The Specific Constants of Programs - Sabin Goron, University of Cluj-Napoca, Romania	62
♦ Using the ISO Computer Graphics Reference Model in the Design of User Interfaces - Costin Pribeanu, Research Institute for Informatics, Bucharest, Romania ..	65
♦ Data Dependence and Parallelization of Sequential Programs - Dan Racoviţan, Monica Ciaca, Alexandru Vancea, University Babeş-Bolyai, Cluj-Napoca, Romania	70
♦ An Object-Oriented Environment for Complex Object Acquisition and Validation - Octavian Man, Ovidiu Pop, Center for Applied Informatics, Technical University Cluj-Napoca, Romania	73
♦ Extension de la notion de type dans les langages orientés objet - Hugues Lecoeuche, Institut National des Sciences Appliquées de Lyon, France	77
♦ Object Maker Windows Interface - Michaela Ciucur, Research Institute for Informatics, Bucharest, Romania	83
♦ Test Case Generation Algorithm - Mike Moldovan, Moorpark, USA	88

Section II - Security, Standards and Software Quality

◆ The Backpropagation Algorithm and its Derivations: Comparative Performences - E Gaura, A. Burian, Technical University, Cluj-Napoca, Romania	95
◆ A System for Software Testing and Evaluation - R. Trifu, Reasearch Institute for Informatics, Bucharest, Romania	100
◆ Consideration about Pseudo-Random Sequence Software Generation for Cryptography - G. Zenovic, Technical Military Academy, Bucharest, Romania	107
◆ Defining Systems Quality: Involving End-Users - R. Kusters, F. Heemstra, J.Trienekens, Eindhoven, University of Tehnology, The Netherlands	110
◆ Principles and Architecture of a Dedicated System for Software Reliability Measurement and Prediction Using Trend Analysis - Marian Staş, Ministry of National Defence, Bucharest, Romania	122
◆ ISO 9000 and Capability Maturity Model for Software: Approaches to Quality Management and Process Improvement - T. Baron, I. Ivan, Academy of Economic Studies Bucharest, Romania, Al. Balog, Research Institute for Informatics, Bucharest, Romania	126
◆ Software Licence Cost - Paula Apreutesei, Research Institute for Computers, Bucharest, Romania	131
◆ Cryptography in the Security of Business Computer Applications - Victor-Valeriu Patriciu, Technical Military Academy, Bucharest, Romania	135
◆ Metrics of Software Complexity - Romulus Arhire, Softplus SRL, Bucharest, Romania, Gabriel Tănase, University of Craiova, Romania	141
◆ Criteria for Assessing the Quality of an Informatic Product - Radu Garofeanu, SC.Energoconstrucția SA, Timișoara, Romania	146
◆ Short Approach on Software Quality Management and Modeling - Laurențiu Teodorescu, QED-Soft, Constanța, Romania, Mihai Popescu, Ministry of National Defence, Bucharest, Romania	154
◆ The RISC Microprocessors Performances and Facilities - Radu Mârșanu, Academy of Economics Studies, Bucharest, Romania	159
◆ Comment evaluer les performances des systemes d'information - Gabriela Avram, AISTEDA, Alba-Iulia, Romania	165

Section III - Open System and Distributed Processing

◆ L'analyse du temps de réponse dans des réseaux informatiques - Nicolae Tomai, Université "Babeș Bolyai", Cluj-Napoca, Roumanie	171
◆ Compatibility RDBMS-GIS in the "Open Systems" Universe - Virgil Dușescu, Gabriela Chirilă, Research Institute for Informatics, Bucharest, Romania	175
◆ Technical and Operational Features of Romanian Senate Local Microcomputer Network - Valeriu Pescaru, Bucharest, Romania	180
◆ Load Balancing Techniques for Improving Execution Efficiency in Distributed Computing Systems - Alexandru Vansea, University "Babeș Bolyai", Cluj-Napoca, Romania	183

◆ Internetwork Configuration and Design Algorithm ICDA - Claudiu Bulaceanu, Institute for Computers Bucharest, Romania	187
◆ Administration des réseaux informatiques - Gheorghe Dodescu, Floarea Năstase, Adrian Vasilescu, Académie des Etudes Economiques, Bucarest, Roumanie	193
◆ SNMP Support Available for NetWare Servers - Florin Vladimir Pilat, Academy of Economic Studies, Bucharest, Romania	197
◆ Intelligent User Interface for UNIX on Small Machines - Nikolaos Manolis, Athens, Greece	202
◆ Méthodes et outils d'optimisation des architectures logiques et physiques des applications transactionnelles dans un environnement réparti - Benjamin Razafimandimby, Béatrice Rumpler, INSA de Lyon, France	209
◆ Modélisation du temps de réponse pour l'évaluation de performance d'applications transactionnelles - Mario Polo, Béatrice Rumpler, INSA de Lyon, France	219
◆ Windows NT: Promesses et limites - Ioan Roxin, Académie des Etudes Economiques, Bucarest, Roumanie, Fabrice Cêtre, INSA de Lyon, France	228

Section IV - Multimedia

◆ High-level Interface Facilities for an Object Oriented Multimedia Database Management System - Radu Bercaru, Alexandru Boeșteanu, Vladimir Florian, Mihai Marchidann, Research Institute for Informatics, Bucharest, Romania	235
◆ A Way to Integrate Multimedia into Traditional Scholarship - Marian Dobre, University "Politehnica", Bucharest, Sorin Manta, FORTE Computers Ltd., Bucharest, Romania	242
◆ The Representation of Natural Language's Semantics in Multidatabase Conceptual Modelling - Alexandra Galatescu, Research Institute for Informatics, Bucharest, Romania	248
◆ On Line Cutting Stock Problem Using Multimedia - Csaba Fabian, Academy of Economic Studies, Bucharest, Romania	254
◆ Processing of a Still Picture - Adrian Vasilescu, Academy of Economic Studies, Bucharest, Romania	258

Section V - Data Bases

◆ Some Remarks about the Object Oriented Data Bases (OOD) in the Management and Business Information Systems (MBIS) S.I.Nițchi, R. Avram-Nițchi, University of Cluj-Napoca, Romania	263
◆ Some Remarks about the Management and Business Information Systems Based on Flat Data Bases - R. Avram-Nițchi, S. I. Nițchi, University of Cluj-Napoca, Romania	267
◆ Knowledge Islands and Objects - an Approach to the Object Oriented Knowledge Base Design - Stefan Kovacs, ICSPM, Bucharest, Romania	272

◆ BDPS - A Signal Processing Data Base Information - Gabriel Ciplea, Corneliu Rusu, Technical University, Lucia Rusu, "Babeş-Bolyai" University, Cluj-Napoca, Romania	276
◆ The Principles of Automatic Information Systems Designing for Economic Entities of Different Levels of Hierarchy - I. Costaş, STS "Informational Technologies and Systems", Khisinev, Moldova	280
◆ Les particularités de la constitution et du fonctionnement des banques automatisées des données (BnAD) dans l'économie - T.St.Leahu, Académie d'Etudes Economiques, Khisinev, Moldova	283
◆ EXMAN 3.0. Data Base Object Oriented Integrated Interactive System Used in Management, Accountancy and Financial Administration - Gelu Vasile Frunză, Andrei Stoica, Nicolae Leonte Neagu, Nicolae Balan, ECSO & EXO Ltd., Bucharest, Romania	289
◆ Utilization of Some Features of the Communication Language in the Creation of the Database Frame in the Field of Ecology and Agriculture - I. Burlacu, STS "International Technologies and Systems", Khisinev, Moldova	293
◆ "DBCLASS": An C++ Object Library for Database Management - Andrei Iancu, Research Institute for Informatics, Bucharest, Romania	294
◆ ISA - Correctness in OODB Schemas - Ioan Despi, Victoria Iordan, Alexandru Cicortaş, Western University, Timișoara, Romania	298
◆ Useful Methods and Techniques in the Maintenance of Data Bases that Allow the Product Structure Representation - Alexandru Cicortaş, Ioan Despi, Victoria Iordan, Western University, Timișoara, Romania	302
◆ Comparing the Object Oriented Data Bases with the Relational Data Bases - Magdalena Stanciu, Academy of Economic Studies, Bucharest, Romania	306

Section VI - Searching Methods in Solution Space

◆ On the Use of Multiple Centrality Corrections a Primal-Dual Method for Large Scale Linear Programming - J.Gondzio, University of Geneva, Switzerland	311
◆ Maximum Likelihood Estimation of Convex Density Functions - T. Terlaky, Delft University of Technology, J.Ph.Vial, University of Geneva, Switzerland	322
◆ The Dynamic Programming and Catalan Number - Daniel Luca, Academy of Economic Studies, Bucharest, Romania	330
◆ A Generalization for Tower of Hanoi Puzzle - Ioan Odăgescu, Daniel Luca, Academy of Economic Studies, Bucharest, Romania	335
◆ Some Remarks Concerning the Determination of Relational Pattern from a String of Symbols - M. Oprea, University of Ploiești, Romania	340
◆ Relation Scheme Calculus - S.Pereteatcu, T. Bragaru, Academy of Economic Studies, Khisinev, Moldova	343
◆ Experimental Study of Numerical Integration by Monte Carlo Method - N. Cătănicău, ICSMPS, Bucharest, Romania	347
◆ Optimal Dynamic Decision of Firm in a Market Economy - A. Andrei, Academy of Economic Studies, Bucharest, Romania	351

♦ An Algorithm for Determination Firm's Technological Changes - A. Andrei, Gh. Oprescu, V. Piculescu, Academy of Economic Studies, Bucharest, Romania	355
♦ About some Generators of Pseudorandom Numbers which is Employing the Inverse Concurrential Method - T.C. Dosesu, C-tin Raischi, Academy of Economic Studies, Bucharest, Romania	359
♦ Sur l'amélioration de la précision et de la rapidité des certaines méthodes de trouver des solution a l'aide de l'ordinateur - R. Militaru, University of Craiova, Craiova, Roumania	362
♦ Some Developments in Economic Cycles Analysis: Hicks and Samuelson's Models - Gh. Oprescu, M. Zaharia, Academy of Economic Studies, Bucharest, Romania	367
♦ On a Credibility Model - I. Săcuiu, I. Mircea, Academy of Economic Studies, Bucharest, Romania	371

Section VII - Expert Systems in Economy

♦ A Multiagent Expert System for Personnel Performance Evaluation - Ioan Andone, University "Al.I.Cuza", Iassy, Romania	375
♦ A Multi Neural Architecture Controlled by Simulated Annealing - G. Desroques, S.A.Laribi, J.C. Bassano, Laboratoire d'Informatique Fondamentale d'Orléans la Source Orléans, Orléans, France, A. Laribi, Centre Universitaire d'Informatique, Université de Geneve, Geneve, Suisse	380
♦ Un réseau de neurones pour l'apprentissage supervisé d'une grammaire du langage naturel - Dominique Archambault, J.C. Bassano, Faculté des Sciences Université d'Orléans la Source, Orléans, France	385
♦ Système expert pour l'enseignement de la nouvelle comptabilité en Roumanie - Pavel Năstase, Mihaela Zezeanu, Academie d'Etudes Economique, Bucarest, Roumanie	394
♦ Expert Systems for Higher Economic Education Assistance - I. Gh. Roșca, Constanța Bodea, Manole Velicanu, Academy of Economic Studies, Bucharest, Romania	403
♦ Problèmes concernant la généralisation des systèmes experts dans les activités financières et comptables - Dinu Airinei, Université "Al.I.Cuza", Iassy, Roumanie	409
♦ Explan - Système a base de connaissances pour aider l'entrepreneur dans le développement du plan d'affaire - Anca Sendrea, Maria Moise, Institut de Recherche en Informatique, Bucarest, Roumanie	413
♦ Exman - Knowledge Based System for Managerial Process - Maria Moise, Research Institute for Informatics, Bucharest, Romania	417
♦ La réceptivité de la comptabilité aux produits de l'intelligence artificielle de type système expert - PIASE - Alexandru Țugui, Université "Al.I.Cuza", Iassy, Roumanie	422
♦ Expert Systems in the Domain of Operational Audit - Eugeniu Diatcu, Hyperion University, Bucharest, Romania, Ștefan Kovacs, ICSPM, Bucharest, Romania	429
♦ Contributions to the Building of a Tutorial Expert System - Eugeniu Diatcu, Florin Vlad, Hyperion University, Bucharest, Romania	431

♦ Expert Systems for the Prevention of Chemical Risks - Felicia Decusară, ICSPM, Bucharest, Romania	435
♦ The Role of Knowledge Base System in Knowledge Management - R.W. Schuwer, Eindhoven University of Technology, The Netherlands	438

Section VIII - Information Systems

♦ Tendences in Project Accounting and Financial Informating Systems - Lucia Rusu, Alexandru Rusu, Monica Ciaca, University "Babeş-Bolyai", Cluj-Napoca, Romania	445
♦ Accounting Information Systems - Bogdan Ghilie-Micu, Cătălin Huidumac- Petrescu, Academy of Economic Studies, Bucharest, Romania	447
♦ The Computer Assisted Education: Realizations, Problems and Ways of Their Solutions - Ion Covalenco, Boris Delimarschi, Academy of Economic Studies, Kishinev, Moldova	450
♦ Computer Assisted Instruction in Higher Economic Education - Constantin Baron, Gabriel Zamfir, Academy of Economic Studies, Bucharest, Romania	454
♦ Integration of the Production System Thanks to the Information System - F. Biennier, P. Coquard, J. Favrel, INSA de Lyon, France	459
♦ Contributions to the Interactive Analysis of the Effects of the Delays on the Feedback Loops Behaviour within the Dynamic Economic Systems - Marian Zaharia, Emil Scarlat, Violeta Piculescu, Academy of Economic Studies, Bucharest, Romania	466
♦ Automatic System for Documentary Research and Library Management - Sanda Berar, University "Babeş Bolyai", Cluj-Napoca, Romania	469
♦ Geographical Information System for Designing the Forest Management - Luminița Berechet, Software ITC - SA, Bucharest, Romania	473
♦ Computer-Based Information System for Chambres of Commerce in Egypt - Mohamed Mohamed Refat, Zagazig University, The Arab Republic of Egypt	477
♦ Systems of Assistance in Foreign Business Decisions - Lascu Riecu, Georgeta Soava, University of Craiova, Romania	481
♦ Triton - a Fully Integrated Business Solution - Mariana Niță, Cristina Chiriac, Daniela Floroiu, Corina Câmpeanu, Cătălin Dumitrache, ITC SA, Bucharest, Romania ..	484
♦ La gestion des informations et des décisions économiques - Nicolae Apopei, Constantin Apostol, Cornelia Stratulat, Académie des Études Économiques, Bucarest, Roumanie	487
♦ The URSIN - VI Application for Generating of Synoptical Control Applications of Industrial Processes - Remus Joldes, "1 st December" University, Alba Iulia, Romania	489
♦ SIGES - a Proposal of an Architecture for a Management Information System - Vasile Avram, INFOREX Software Ltd., Bucharest, Romania	495
♦ Computerised English-Romanian Dictionary - Automatic Orientation System within Texts - Doina Stroia, ITC SA, Bucharest, Romania	499
♦ Touring Firm Level Informatics Systems - Breda Luckacs, S.C. Univers Tourist Ltd., Tușnad spa, Romania	507

◆ Technologies and Methodes for the Management of Modular Products - Gabriel Marin, Omnilogic - BGS	511
◆ L'importance de l'integration d'analyse du travail existant dans les methodes d'analyse informatiques - Adriana Burlea Şchiopoiu, Université de Craiova, Roumanie	517
◆ Current Trends in Information Systems Benefits Evaluation - Gheorghe Sabău, Ion Lungu, Constanța Bodea, Manole Velicanu, Academy of Economic Studies, Bucharest, Romania	521
◆ Important Changes and Tendencies in the Practice of Developing the Informatic Systems - Gheorghe Sabău, Ion Lungu, Academy of Economic Studies, Bucharest, Romania	525
◆ Merisse, Acteurs, Objets : Vers une démarche de conception de systemes d'information organisationnels robustes et evolutifs - J.-P. Matheron, IUT Paris Université René Descartes, Paris, France	528
◆ System for the Diagnosis, Therapy Orientation and Surveillance of Patient with Diabetic Neuropathy - Emilia Stanciu, Mihaela Voitec, Software ITC SA, Constantin Ionescu-Târgoviște, Institute of Nutrition and Metabolic Diseases "N. Păulescu", Bucharest, Romania	533
◆ Urgente - Programs for the Diagnosis, Therapy and Surveillance of Patients with Metabolic Emergencies - Andrei Necula, Simona Alecu, Emilia Stanciu, Software ITC SA, Constantin Ionescu-Târgoviște, Cornelia Dragomirescu, Mircea Grigorescu, Institute of Nutrition and Metabolic Diseases "N. Păulescu", Bucharest, Romania	537
.....	
◆ Computer-Assistance for a Medical Unit - Smaranda Constantinescu, G. Ferent, Cornelius Mascheck, Software ITC SA, Bucharest, Romania	540
◆ The Optimization of Work's Arranging in the Sequential Systems - Ion Bolun, Academy of Economic Studies, Khisinev, Moldova	542
◆ An Introduction to Project Management with Primavera - Dan Liviu Dragan, Dimitri Militescu, TOTALSOFT, Bucharest, Romania	547

Section IX - Economic Modelling

◆ Monetary Channel Versus Credit Channel and their Influence in Economic Equilibrium - Monica Roman, Scarlat Emil, Chiriță Nora, Academy of Economic Studies, Bucharest, Romania	553
◆ Un modèle de desequilibre dans un économie ouverte - Hanzi-Georg Faghiura, Wien, Autriche, Marin Dumitru, Mihai Roman, L'Academic des Etudes Economiques, Bucarest, Roumanie	558
◆ Considerations on a Possible Approach Model of Systems - Moise Cocan, "Transilvania" University, Braşov, Romania	562
◆ Modelling and Algorithms for Negotiation Processes in Technological Transfer - Marcel Stoica, Daniela Hincu, Academy of Economic Studies, Bucharest, Romania	566
◆ Self Development by Simulation Method in Inventory Management - Ion Plumb, Carmen Mincu, Academy of Economic Studies, Bucharest, Romania	569

♦ Optimization of Process Involved in the Production of Controlled Atmospheres. Finding the Components of the Active Medium in the Oven Using a Computer - Fevronia Bulacu, Academy of Economic Studies, Bucharest, Romania, Elena Ghelec, Leontin Drugă, INTEC, Bucharest, Romania	571
♦ Méthodes de recherche géométriques de certaines solutions pour les systèmes lineaires de grandes dimensions - Marcel Stoica, L'Academie des Etudes Economique, Bucarest, Roumanie	574
♦ Computer Aided Analysis and Simulation Activities for Final Energy Consumption - Adina Tătaru, Rodica Mihalca, Academy of Economic Studies, Bucharest, Romania	576
♦ Asymmetrical Information and the Equilibrium in a Public Economy - Mihai Roman, Academy of Economic Studies, Bucharest, Romania	579
♦ The Interference between Microeconomic and Macroeconomic Desquilibrium - Stelian Stancu, Academy of Economic Studies, Bucharest, Romania, Alexandru Rader, Wuppertal, Germany	582
♦ The Oligopolist Competition and Economic Equilibrium - Mircea Poenaru, Marin Dumitru, Stelian Stancu, Academy of Economic Studies, Bucharest, Romania, Lucia Rader, Wuppertal, Germany	587

Section X - Statistical Methods

♦ The Use of Statistical Models in Software Quality Assurance - T. Baron, Academy of Economic Studies, Bucharest, Romania, A. Balog, Research Institute for Informatics, Bucharest, Romania	593
♦ Possibilities of Analysing the Actual State of the Romanian Economy at Regional Level - Daniela Luminița Constantin, Academy of Economic Studies, Bucharest, Romania	600
♦ Des consideration en ce qui concerne le mode d'interpretation de la variation et de l'asymetrie dans une distribution de fréquences - Elena-Maria Biji, Eugenia Lilea, Mihaela Vătui, Académie des Etudes Economiques, Bucarest, Roumanie	609
♦ Systeme informatique d'analyse boursiere - Bogdan Ghilic-Micu, Virgil Voineagu, Constantin Mitruț, Académie d'Etudes Economiques, Bucarest, Roumanie.	614
♦ Informational Aspects of the Firm's Activity. Workers' Selection; the Modeling and the Enforceability of the Optimal Contract - Virginia Mărăcine, Academy of Economic Studies, Bucharest, Romania	618
♦ From the Intrinsic Info-algorithm of the Natural Laws to those of the Mental-encephalics of the Human Economy - Gh. N. Daric, Software-ITC, Bucharest, Romania	623
♦ The Measurement of Quality Changes in Constructing the Consumer Price Index - Mitruț Constantin, Virgil Voineagu, Academy of Economic Studies, Bucharest, Romania	629
♦ Object Oriented Programming in Managerial Activity - Maria Boldea, University of West, Timișoara, Romania	632
♦ Agregation des données financieres - Inguata Clotaire Jonas, Republique Congo...	639

♦ Employing the Model of Bifactorial Variance Analysis in the Study of Infections Diseases Incidence - Emilia Tițan, Academy of Economic Studies, Bucharest, Romania	641
♦ Une analyse de données pour déterminer les caractéristiques d'un maillage de type éléments finis dans le cadre d'une application en reconnaissance de formes - P.Olivaux, M.Ferney, l'Ecole Nationale d'Ingénieurs de Belfort, France, Livan, Académie des Études Économiques, Bucarest, Roumanie	651
♦ Participative Quality and Management Model in the Knowledge Society (global aspects) - Michael Tatomir, Germany	658
♦ Methods and Techniques to Transform the Systems of Programs - Tiberiu Zbârnea, UM 01878, Romania	665
♦ Presenters of papers	673
♦ Sponsors	683
